EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Zimmerman on December 29, 2009.

The Examiner has made the following changes to the claims:

Claim 1

In line 6, replace --(a) presenting a user generated-- with --(a) presenting user generated--

Claim 21

In line 11 (line 2 of step (c)), replace --irrelevancy keyword-- with --phrase--

Claim 50

In line 14 (line 2 of step (c)), replace --irrelevancy keyword-- with --phrase—

Information Disclosure Statement

2. The information disclosure statement filed 10/19/2009 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because it cites an office action in the non-patent literature documents section. Office Actions are not public documents, they cannot be used as prior art against the instant application and are not proper to cite in an IDS. Office Actions are not printed in the “other publication” section of the patent once issued. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).

Reasons for Allowance

3. The following is an examiner’s statement of reasons for allowance: claims 1-45 and 47-51 are considered allowable since when reading the claims in light of the specification, as per MPEP § 2111.01 or *Toro Co. v. White Consolidated Industries Inc.*, 199 F.3d 1295, 1301, 53 USPQ2d 1065, 1069 (Fed. Cir. 1999), none of the references of record alone or in combination disclose or suggest **the combination of limitations** specified in the independent claims, specifically querying a user for a phrase that indicates that a communication is not related to a concept, presenting communications

Art Unit: 2129

to the user for labeling as relevant or irrelevant and developing a classifier based upon the phrase, the relevant labels and the irrelevant labels assigned by the user.

Lewis (US Patent #5,675,710) discloses an annotation system that produces machine annotated data. A supervised learning system receives manually annotated data and machine annotated data to produce a classification vector.

Fries et al. (US Patent #6,751,606) discloses a search tool for assisting a user to perform a search of the internet. A user query is received and search results are provided to the user.

Lewis and Fries fail to teach **the combination of limitations** of the claimed invention without unduly motivating one of ordinary skill in the art to exert substantial experimental effort to integrate such combination concepts. Further, the Applicant's Remarks in the response dated 10/29/2009 are acknowledged and accepted.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. Claims 1-45 and 47-51 are allowed.
